Tactical FX Smoke:

SMOKE SAFETY AWARENESS:

Smoke Grenades cannot be sold to or used by any person under the age of 18 years.

There are potential hazards associated with the use of this product, therefore:

IT IS THE RESPONSIBILITY OF THE SITE MANAGER TO ENSURE THAT THE ENVIRONMENT AND MANNER IN WHICH THE PRODUCT IS USED IS SUITABLE AND SAFE.

Any person buying or using Grenades must read and comply with the following conditions. Site operators not agreeing to these conditions cannot be supplied.

Smoke Grenades generate heat that could potentially ignite paper, dried vegetation etc. Heat is contained within the casing of the Grenade during normal operation; however, on ignition the Grenade can produce a small flame, and emit very hot gas. Therefore the grenade must not be used near (5 metres minimum) any person or combustible material.

This safety zone is recommended for guidance only; it is the ultimate responsibility of the site management to determine the suitability of the site for use.

The smoke can potentially stain surrounding surfaces.

The Smoke Grenade should only be used in the open and never indoors.

Persons suffering from any breathing difficulties should not be exposed to the smoke.

Smoke Grenades retain heat after burning; therefore the use of grenades should be carefully supervised by Stewards/ Marshals familiar with the safe use of pyrotechnics.

Each site must ensure that customers do NOT take any unused devises away from the site.
